

How to download video assets

Instructions (see [video](#))

1. Navigate to the **social post URL** in your desktop Chrome browser.
2. Right-click any empty area on the page and select **“Inspect”**.
3. In the right-side **Developer Tools**
4. Click the **mobile emulator button** in the top-left corner
5. Ensure an **iPhone device** is selected.
6. **Refresh** the page and scroll down to the ad.
7. Click the **play button**.
8. While video is playing, right-click on the video player and select **“Save Video As...”**.
If this does not work, please follow these steps:
 - a. Right-click on the video player and select **“Inspect”**.
 - b. In the Elements panel (right side), double-click the URL located in **SRC**
 - c. Copy the URL using **CMD+C** or **CTRL+C**.
 - d. Open a new browser tab and enter the URL.
 - e. Right-click the video and select **“Save Video As...”**
9. **Name file** and **Save** to computer.
